Chapter 5000

Logistics

NW Area Committee Expectations:
- NW Area Committee members and those responding within the region are fully aware of the need and importance to rapidly staff and effectively run a robust logistic section to support response operations.

Critical Elements of Chapter 5000:
- Highlights the importance of adequate and appropriate Logistics Section staffing, roles and responsibilities.

- Highlights the importance of rapidly establishing a strong communications plan, adequate to manage the complexities of the response operations, and functional in remote areas if applicable.

- Highlights the importance of establishing adequate and appropriate incident facilities (including Command Posts and Staging Areas), and staffing.

Logistics

5100 Communications
The frequency and communications resource summary in the section 9501 Communications Manual provides further detail on topics such as communications terminology, equipment setup, types of communications systems, and more.

5200 Area Resources: Infrastructure
5210 Incident Facilities
Designated incident facilities, such as a Command Post (CP), an incident base, or a staging area, may be established based on the requirements of the incident. The Incident Commander or Unified Command determines when these facilities are established and where they are located.

The CP is the location from which all incident operations are directed. Only one CP is required per incident. Government and private entities should be co-located at the CP to make planning and communications easier. The communications center is usually established at the CP. Incident bases(s) are used for large oil spills affecting a large geographical area and provide staging areas for equipment and personnel (i.e., small craft launching area, shoreline cleanup access point).

5211 Pre-designated Command Post Locations in the Puget Sound Area
In the Puget Sound Area, major metropolitan areas which have been pre-designated for command post locations are:

- Port Angeles
  - (Strait of Juan de Fuca GRP & Outer Coast GRP);
- Bellingham
  - (North Puget Sound/San Juan Islands GRP);
- Anacortes/Mt. Vernon
  - (North Puget Sound/San Juan Islands GRP);
- Everett
  - (North Central Puget Sound GRP);
- Seattle
  - (Central Puget Sound GRP);
- Bremerton
  - (Central Puget Sound GRP); and
- Tacoma
  - (Central Puget Sound GRP).

5212 Pre-designated Command Post Locations in the Portland Area
In the Portland Area, major metropolitan areas which have been pre-designated for command post locations are:
- Portland
  - (Lower Columbia GRP)
- Astoria or Grays Harbor
  - (Grays Harbor GRP)
- Yaquina Bay
  - (Northern Oregon Coast GRP)
- Coos Bay
  - (Southern Oregon Coast GRP)

5213 Pre-designated Command Post Locations in the Inland Area
In the Inland Area, major metropolitan areas which have been pre-designated for command post locations are:
- Kennewick
  - (Mid-Columbia River GRP)
- Others T5500
  - Area Resources: Response Equipment

5214 Area Resources: Personnel and Services

5215 USCG

5216 USCG National Strike Force
